

# MULI BONFACE

## Frontend Developer & Data Scientist

I am a passionate individual with expertise in both frontend development and data science. With a background in computer science and a keen interest in technology, I thrive in bridging the gap between user experience and data-driven insights. I am excited about the endless possibilities at the intersection of frontend development and data science, and I am eager to continue making meaningful contributions to both fields.

### Email

mulibonface187@gmail.com

### Address

Kangundo Road, Nairobi, Kenya

## Education

2024

**Bachelor of Science Informatics**  
Rongo University

2019

**Certificate in Computer Studies and Microsoft Packages**  
Leone Computer College

2018

**Certificate of Secondary Education**

Starehe Boys' Centre & School

## Expertise

UI/UX

Python, Keras,  
Matplotlib

HTML, CSS & JS

Numpy, PyTorch,  
Seaborn, Jupyter,  
Sass

TypeScript,  
ReactJs  
ThreeJs  
NextJs

MySql,  
Bootstrap,  
NodeJs

SPSS, NLTK,  
Scikit-Learn, TF,  
Pandas

## Experience

### 2022 - Present

Frontend Developer

#### Freelancer

- Designing and developing responsive web applications from concept to launch, focusing on user-centric design principles
- Implementing interactive features and animations using JavaScript and front-end frameworks like React
- Optimizing website performance and usability through continuous testing and refinement

### 2023 - Present

Data Analyst

#### Freelancer

- Conducting in-depth data analysis to identify trends, patterns, and insights for client projects
- Developing custom data visualizations and interactive dashboards using Machine Learning, resulting in improved decision-making for clients
- Collaborating with front-end developers to integrate data visualizations into web applications and ensure a seamless user experience (Google Developers Club)

### 2024

Java Developer

#### Freelancer

I'm proficient in core Java development. With a passion for creating efficient and scalable solutions, I am learning how to bring a wealth of experience in designing and implementing software applications across various domains through projects and taking GDSC classes.
